TIRUPATI EYE CON 2024

Welcome Message

Respected members,

APOS Executive committee and LOC, Tirupati Eyecon welcome you to our Annual conference at Tirupati this year in September. We are back to the abode of Lord Venkateswara after a decade of our First Annual conference post state division. We have His blessings all these years and we once again pray and seek His continued wishes in our journey..

Our member's strength has increased with addition of diverse, vibrant young successful practitioners and postgraduates from all over the nation. At the same time the leadership is working hard to ensure that the delegates will have an opportunity for enjoyable learning experience with leisure and comradeship.

Scientific and Academic research committees of our association are making detailed program so that delegates of all categories will be benefited and will have a better hands on experience. Our scientific program is unique with sessions where every participant will have an opportunity to attend right from basics to advanced courses. They are ensuring that the best of the available faculty both at the state and national level are attending so that our members can have a good chance to meet them personally.

As Ophthalmic surgical and pharmaceutical industry are part and parcel of our annual events, this time also we are making all our efforts for their participation in big numbers. The trade exhibitions are like one stop solution for most of us for our day to day requirements of our professional practice. We are also ensuring that they will bring the latest technology for display for the benefit of our participants.

Tirupati LOC is well known for hospitality with cultural and spiritual touch. We have identified one of the best venues within the city with good ambiance and with plenty of affordable and accessible accommodation available within the reach of the venue. We are confident that delegates will have safe and comfortable stay.

Please come forward and participate in big numbers and we will be happy to welcome you for amemorable event.

As part of our responsibility to contribute for the better environment we will be using most of our communication digitally right from the invitation to registrations and scientific submissions. Your cooperation is highly appreciated in this regard.

Thank you

LOC, Tirupati Eyecon & APOS Executive.
